FONDERFUL CURE OF ASTHMA OF 18 TEARS Copy of a Letter from Mr. Ferdinand Ms. Devitt, Innkeeper & Grocer, Glenties, Co. Donegal, dated 4th March, 1861.

To Professor Holloway.

Sir,—I suffered from asthma for 18 years, accompanied with great difficulty of breathing, and severe cough with spitting of blood. I was also afflicted with Piles. At different times I was treated by most skilful physicians, and was at length pronounced by them to be beyond cure;—as a last resource, I was induced to use your Pills and Ointment, and duced to use your Pills and Ointment, and in the short space of a formight could walk about, and am now perfectly cured, to the are tonishment of all who knew me.

Copy of a Letter from Mrs. Mary Foster, Half Moon Street, Totness, dated March 16th,

To Professor Helloway 100 11 TA Sir,—For many years I suffered periodically from headache, and giddiness in the head, to such a degree, that at times I have scarcemedical advice without effect, I tried your Pills, and in less than a week, I was com-pletely cured, Mrs. Donnal, Chemist, of Totness, can vouch for the truth of the above

COMPLAINTS OF WOMEN AND CHILDREN.

The very mild and painless action of these valuable Pills, recommends them to every ousehold as a remedy for the early departures from health Any mother, nurse, or young person guided by the directions which accompany each box of Holloway's Pills, has at once available means for checking disease, purifying the blood, and expelling from the system all gross humors. They are, indeed at all ages, the tried female's friend. DISORDERS OF THE LIVER WITH PLATULENCE &

Loss of appetite and flatulency are usually the forerungers of stomachie disease. These amous Pills exercise the most salutary power in all affections of the liver, and all irregular a healthy function to every laternal organ, vercome all obstructions, and cast out all mpurities.

THE ACTION OF THE KIDNEYS & OTHER INTERNAL The immediate loss of mascular strongth and nervous energy is more particularly re-narkable in renal than in most other diseases. Their deficient action for one day suffices to produce fever, bence the necessity for prompt and efficient treatment. Holloway's Pills have the great merit of restoring any suspend-ed or diminished secretions, and of relieving any inflamation or congestion in the spleen,

kidneys, or other subsidiary organs.
The tight, suffocating, anxious feeling caused by derangement of the heart, makes the sufferer look on present death as imminent. Holloway's Pills proce an efficient and ready remedy when the disturbed circulation de-pends on indigestion, flatulency, or debilitatdisturbance of the heart, should take about six of these Pills two or three times a week, according to circumstances, to arrest the too active action of the heart.

WEAKNESS, LANGOUR AND DEBILITY. These famous Pills will immediately re-move all symptoms of debility, languar and weakness, as they act upon the main springs, of life, and thus save thousands from a pre mature grave.

Holloway's Pills are the best remedy known in the world for the following diseases :-Inflammation

REMEDY.

OREGON

RHEUMATIC CURE.

HISTORY.

This Remedy is composed of the active principle of the Unk Weed, Eng.—Thaspium Cordatum Originis, Lat.—Indigeneus to Oregon. Grows most abundantly and purfectly in Washington Co. PROPERTIES, Etc.

It contains an ACTIVE VOLATILE Principle, extracted by Ether, and a bitter TONIC Principle, soluble in Alcohol.

Medical Properties and Uses. It is the most sure and speedy care for Rheumatism, Rheumatic Gout and Rheumatic Pains of all kinds that was ever introduced in the Materia Medica. THE UNK WEED REMEDY, as prepared by us, in consequence of the existing bitter principle, possesses the necessary virtue of being a

POWERFUL TONIC,

Promoting the Appetite and Invigorating the whole Digestive Apparatus, thus Building ap and Strengthening the system, while at the same time the volatile principle, being absorbed in the blood, acts specifically on the Rheumatic Poison, removing it from the circulation and system.

There are a few remedies known to the Medical Profession which will remove the Rheumatic Poison from the blood, but whose action is so powerful in depressing the systient, that their use has to be abandoned fore specific effects are obtainable, hence the want of success in treating this prevalent, and in consequence heretofore incurable disease. Unlike these Medicines, already known, the

UNK WEED REMEDY

though producing as powerful and as active effects on the blood and system in removing the Rheumatic Poison, also possesses a strong Tonic and recuperating element which admits of its continued use even by the most Delicate and debilitated. Thus we have the combination for the first time of these Two Necessary Elements in one remedy, which accounts for its Superior and never-failing curative effects in

Rallway Surveys of 1871. will be about the 7th December, during which time I will be pleased to receive orders from parties desiring views from these negatives. This may be the only chance, so it is not well to delay.—B.F. BALTZLY, for WM. NOTMAN, Montreat. great amount of work that has been done in so brief a period of time. Only his place of business to the store adjoining the Colonial Hotel, Government street, four Railway surveyors under Mesers. McLennan and Moberly left this city to survey the country east of the Country and the Countr survey the country east of the Cascade Mountains. They had some two hun-dred miles of water travel to make, and from two to three hundred more on foot before reaching the points where explorations commenced. Yet we find that Mr. Moberly's party has passed along the entire boundary line to Kootz ousy; and from there into the passes of the Rocky Mountains. So far as we can learn, his party has passed around the head waters of Columbia river, and at last accounts were about to explore Howse's Pass with the object of determining the advisability of bringing the railway by that route around the Bg Bend of the Columbia, and thence via Eagle Pass into the Thompson River There's nobody left to make Tom & Jerry. Valley. Whether he will succeed to the The people of Victoria all mutually agree full extent of his desire in passing through Howse's Pass is uncertain; but his energy in pushing into those wilds at so late a period of the year deserves both praise and consideration. The survey of Eagle Pass by Mr. Mohun's party is also a good work done, and will doubtless be utilized hereafter in opening up the country. In the far North, in the Cariboo region, Mr. Mahood's party, in forcing its way through the Cariboo ranges towards Tete Jaune Cache, has been doing good service amid difficulties more easy to imagine than describe; but whether he has succeeded in reaching the Cache by this time seems still uncertain. But intermediate between all the different surveying parties is the one led by Mr. McLanan, the Chief Engineer. His party starting from Kamloops passed up the North Fork of the Thompson some two handred and thirty miles to Tete Jaune or Leather Pass. This we look upon as the most practicable route ex- PUBLIC AUCTION. plored; and we will not be surprised if it should be adopted in preference to all other routes for the railway. It appears to us that by bringing the railway through Leather Pass, the whole fertile country on the North Saskatchewan will be opened up and by bringing it down the North Fork Wednesday, Dec. 20, of the Thompson to Kamloeps, it will open up to trade all the central and southern portion of this Province, as well as bid for the trade of the northeastern part of Washington Territory. The lake communication from Savana's Ferry to the mouth of Eagle Pass, and the south arm of Shuswap Lake will make all way, and give them an outlet to the coast. A short line of railway from Shuswap Lake through Eagle Pass, with deamboats on the Columbia, will give us the entire control of the Kootenay trade and the southeast boundary country. Again, if some fourteen miles of railway were laid between the Spelma-cheen river and the northern end of Okanagan Lake, all that country would be opened up to trade and settlement, down to Rock Creek and south of the boundary. Thus by bringing the railway down the North Fork, we will only require some fifty or sixty miles of railway to utilize all our inland navigation in the south half of the Province. The surveys now in progress under the charge of Mr. Trutch and Mr. Homfray, from Kamloops west, will no doubt be so far com-pleted as to enable the Chief Engineer to lay before Parliament at its next meeting surveys of a continuous line from the Gulf of Georgia to the water-shed of the Rocky Mountains. Such a result will speak volumes for the promptitude of the Cabinet in pushing so vigorously the surveys at the Pacific end of the railway; and also for the commissaries, engineers, and all engaged practically in the exploration. Possibly, already some fifty or sixty thousand dollars have been expended at our end of the line, in surveys. Next year, possibly a great deal more will be spent; but by next fall we trust the whole country from Esquimalt to Johnson Straits, and thence to Kamloops will be surveyed and mapped; and that by the spring of 1873 we shall see the nav-vies at work, and before the succeeding
